

***Did you know that  
1 out of 5 adults in  
Guilford County  
struggles to read?***

**You can help and we'll  
teach you how.**

Reading Connections trains volunteers to teach small group classes and work with students on an individual basis. We also have a need for Learning Lab tutors and office volunteers. Volunteers provide our students with the tools to accomplish their personal goals such as being able to read to their children, improve writing skills, acquire a GED, and improve English conversation skills.

**Reading Connections is conducting a new 3-part  
tutor training at the High Point Public Library.**
